

DNA Culture

The DNA culture of Vegas Christian Center is to create a unique brand which values these characteristics and where parishioners embrace...

VISION *Fulfilling God's Vision*

We will faithfully pursue the vision and remain loyal to serving God. We will take ownership of the vision and do whatever it takes to fulfill it. We are committed to the vision, faithful to God's standards of excellence, and practice seeing things from His perspective.

LEADERSHIP

We will strive for consistent planning and taking calculated risks. We are forward thinking and results driven with a focus on productivity, creativity, innovation and creating generations of leaders. Leadership is leading people into constructive change to achieve results for a real God.

DISCIPLINESHIP

*We will value what people see, think, and feel. We celebrate noble failure and create learning environments. We will maintain and pursue a **"no one works alone"** attitude through teamwork, accountability, and responsibility. In the process of doing this, Teammates are formed into the full image and likeness of Christ.*

Culture trumps all other values, beliefs, principles, and philosophies practiced in an organization. – Dana Everage
